

OPEN THE DOOR TO A STEEL-CLAD PARTNERSHIP

*Quality
Australian
made doors
and shutters*

No matter the complexity or size
of the job, you can consider it done!

Taurean® Door Systems is the partner of choice for door resellers, shed manufacturers and self-storage facility builders who want to grow their business. We focus on designing and manufacturing strong, stylish doors and shutters while leaving the end customer relationship to you.

As a wholly owned subsidiary of Stramit, we draw on more than 30 years of industry experience to give you high quality solutions for domestic and commercial garages, sheds and storage facilities. By providing you with quality Australian made products on time, every time, you can get on with business.

RESIDENTIAL SOLUTIONS

Available in a wide range of colours, our residential range is made with the homeowner in mind. Stylish and hard-wearing with built-in safety features, it's easy to see why our products are popular with today's homeowners and builders.

CLASSIC RANGE SECTIONAL DOOR

With style and safety in mind, the Taurean® Classic Range is made from 0.6mm steel to deliver extra rigidity and support and includes design features which reduce the risk of pinching and finger catching. It also features a nylon curve section in the track for homeowners looking for a quieter option. The door is available in all COLORBOND® steel colours as well as Classic Cedar® and Caoba® premium wood grain colours.

NOVATAUR® RESIDENTIAL ROLLER DOOR

Offering Australia's safest tracks with the deepest profile, the NovaTaur® roller door delivers more than just style. The patented TauraEdge® tracks encase sharp edges, while the unique steel drum wheel and tailored aluminium bottom rail with rolling wheels make it efficient and dependable. The door is balanced with customised springs, rated to 25,000 cycles and is available in all COLORBOND® steel colours.

THE PR1ME COLLECTION

Renowned for its quality design, the Pr1me Collection features a stylish curtain made of quality steel. Available in opening sizes up to 3,100mm x 5,400mm, it is suitable for single and double car garages, sheds and large buildings. The Collection is available in all COLORBOND® steel colours, Classic Cedar® and Caoba® premium wood grain colours, and COLORBOND® steel Matt colours - Monument® Matt, Basalt® Matt and Surfmist® Matt.

COMMERCIAL SOLUTIONS

Whether you're looking for tough, stylish, large or small roller doors or shutters, we've got you covered. Australian designed and manufactured, you can depend on the strength and durability of our products to meet Australia's potentially harsh conditions.

NOVATAUR® COMMERCIAL DOOR

Tough as they come, this door is built specifically for commercial applications, with a thicker curtain (0.55mm) made with a deep profile to provide exceptional strength and rigidity. Its larger, specifically-designed steel drum wheels deliver efficient operation while the bottom rail wheel guides ensure the door runs smoothly. Tested to withstand 25,000 cycles, this heavy-duty door can be customised to suit your requirements.

MINI WAREHOUSE ROLLER DOOR

We are specialist suppliers of roller doors for self storage facilities of all sizes, available in COLORBOND® steel and popular self storage facility colours. Accessories such as door handles, pull ropes and self-storage locks (including dual security locks) offer a range of options. The curtain is manufactured using the highest quality steel, nylon drum wheels and pressed steel brackets, making it the smoothest and quietest operating roller door on the market.

SECURA-T ROLLER SHUTTER

The Taurean® Secura-T range of roller shutters combines traditional design with durability – perfect for Australia's potentially harsh conditions. Each shutter is constructed using interlocking slats which provide strength and security while retaining smooth operation. Available in a range of colours and a full range of opening sizes up to 12,000mm x 12,000mm, the shutter is suitable for large and small industrial applications such as car parks, factories, loading docks and sheds.

SERVICE YOU CAN DEPEND ON

Our end-to-end service means we've got you covered at every stage of the manufacturing and delivery process. We do so by guaranteeing our production, dispatch and ordering processes. Production is six business days on standard products, one of the fastest production times in the market.

TAUREAN STRONG – AND THEN SOME

We're committed to creating an exceptional range of commercial garage doors and have the track record to prove it. Each door is designed to surprise with its stylish good looks and strength.

SAFETY IS THE KEY

Our investment in safety is what sets us apart. We offer market-leading features as standard, making them safe to use and easy to install.

AN EXTENSIVE NATIONAL DISPATCH NETWORK

Our business footprint means we can get your order to you quickly and efficiently, which means less pressure on your business and faster outcomes for your customers.

WE DO THE HEAVY LIFTING TO PROCESS YOUR ORDER

Our strong customer service ethic means we take on the administrative burden. This allows you to invest time back into your business rather than spending time chasing or following up orders.

Taurean® Door Systems is your trusted partner when it comes to garage and shed door, self storage and commercial roller shutter solutions.

QUALITY SOLUTIONS FOR EVERY PROJECT

We manufacture a range of quality garage door and commercial roller shutter solutions to suit your every project need, no matter the size.

We offer everything from roller doors, sectional doors and personal access doors for domestic applications, through to shutter and self storage doors for industrial and warehouse projects. We even have a special range to accommodate cyclonic weather conditions.

Our focus on quality starts with our commitment to innovative research and design at our national Research and Development facility. It continues with our range being engineered, certified and manufactured to Australian Standards.

We invest in your future by testing our products in-house to withstand a lifetime of normal use, providing you with ongoing confidence in the performance of our range.

Our TauraEdge® roller door track is just one of our many safety innovations. It replaces standard track systems with a galvanised track, which encases sharp edges, reducing the risk of cuts and injuries. Our 'no pinch' sectional door panels also aim to protect fingers from getting caught.

WARRANTY

For domestic installations only, a 12 month warranty on the door excluding any corrosion due to the proximity of any salt water or if the door is not installed in accordance with the installation instructions. For more details please refer to the Taurean® Door Systems website taureands.com.au
